Mike: I have attached the documents to request EA Engineering to prepare a work plan for a fixed rate task order for the Wilcox Oil Co Superfund Site RI/FS. The Superfund Program plans to have this task order issued by September 30, 2015, in order to meet Region 6 SF Program commitments. Please let me know if there is anything else you need in order to take CO action on this request. Thank you for your assistance in this matter. Rena
